PRODUCT HIGHLIGHTS

- All-in-one system combines hot and cold therapy

MORE ABOUT THIS PRODUCT

Pain Management Technologies Aqua Relief System, Hot/Cold Therapy Pump All-in-one system combines hot and cold therapy to improve blood circulation and reduce edema/swelling or pain associated with Diabetes, neuropathy, arthritis, and other joint or muscle discomfort. Cold or hot water circulates around the joints for optimal 360° treatments for up to 8 hours, and helps to reduce the risk of skin damage. Features adjustable temperature control from 32°F to 110°F with safety setting and timer. Bladders are not made with natural rubber latex. Booties or Mitts (both sold separately) wrap around feet or hands.

Pump: 13"W x 1-4/5"L x 9-1/2"H • Features: auto shut off, high/low heat settings, timer • 5.4 lbs. • 1-year warranty
